```
+------------------+
| Input: x, y      |
+---------+--------+
          |
          v
+------------------+
|  z = x + y       |
+---------+--------+
          |
          v
+------------------+
| Output: z        |
+------------------+
          |
          v
```

This flowchart illustrates the logical process of adding two numbers, x and y, storing the result in a variable named z (z = x + y), and then outputting the value of z. The flowchart demonstrates the sequential steps involved in this arithmetic operation
